

INSTITUTE OF ACTUARIAL
& QUANTITATIVE STUDIES

Subject: Application of IT- Python

Chapter:

Category: Project

PROJECT

Objective:

Predict “Volume” on the basis of the data shared(“project_train.csv”). Do all the possible preparations and find all the important insights.

Submission:

1. .ipynb file
2. Report(having all the methodologies & preparations) used.
3. Two-Pages concept note having the insights only.
4. Prediction file on the basis of “project_test.csv”.

Since this is a group based project, below are the groups:

Group A:

Richa, Saloni, Ujjawal, Jill Morakhiya, Karan

Group B:

Krunal, Khushi, Brijesh, Keshav Sultaniya

Group C:

Drishti, Dharini, Padam, Khushwant Tripathi, Aryan

Group D:

Atharva, Kareena, Akshay, Ramaswamy Sandowen, Devika
