

Summary

Name - Jeet Jejurikar

Roll no. – 36

Tata Power is constantly growing and has been showing immense growth. The company also has a good dividend payout.

Name - Devanshu Jindal

Roll no. – 37

By observing the stock of NTPC Ltd. For past 10 years I came to know that the share price of company was fluctuating but the dividends the company is providing for last 10 years are almost constant which tell us that how strategic NTPC Ltd. is thinking, the constant dividend payout makes sure that the loyalty of the shareholder stay with them.

Name - Drishti Kakkar

Roll no. – 38

I got a depth analysis of how the companies show their cash flows while researching for the information for my project. At a glance I felt that Siemens over the last 10 years has shown immense growth. Although it faced its highs and lows in terms of share price but the constant dividend helped them to build shareholder's trust in their company and be a part of the company for a long-term.

Name - Mitali Katira

Roll no. – 39

From the data of BHEL, the growth stage and the future strategy of the company can be forecasted as the company has given consistent dividends over the years and is also a safe investment options.

Name - Avani Khatri

Roll no. – 40

From the past 10 years of Bajaj Electrical Company, we can observe that the company has many ups and downs in the growth but then also they are doing well and growing to their best.
