WORK EXPERIENCE

12+ years

SKILLSETS

- Tableau Software (*Certified*)
- Power BI (*Certified*)
- Python Programming
- Django Framework
- MySQL

CERTIFICATIONS

Tableau Desktop Specialist

Power BI Data Analyst
Associate (PL-300)

PROFILE SUMMARY

Highly skilled trainer with 2+ years of experience in software development and maintenance and 10+ years' experience in training freshers and corporate employees on various tools such as **Tableau Software, Power BI, Python, and Django Framework.**

In the past 8+ years, I have fabricated versatile training expertise from universities, career development courses, corporate training, and open workshops. I have conducted training for individuals from different industry sectors like IT, Finance, Logistics, Manufacturing and Sales, and EdTech. Notable clients include Deloitte, Accenture, L&T, Morgan Stanley Capital International, DHL, Kotak Securities, Datametica, and more, engaging global participation.

Parallely with the trainings, I have worked as a Consultant Tableau and Power BI Developer providing project support post training. Clients like Hamilton Housewares and similar have shared their data extracts to build real time case studies for training purposes. During these trainings I have explored varied live scenarios pertaining to finance, logistics, HR, marketing and sales domains.
